Mr. Robert Mann
E-J Electric Installation Co.
46-41 Vernon Boulevard
Long Island City, NY 11101

Dear Bob:

We believe our success on the IAT/Terminal 4 construction project was directly attributable to our strong working relationship, hard work and mutually beneficial commitment to its success.

E-J is one of the sub contractors in the greater metropolitan area that have made that commitment, and we at LCOR are pleased to give our recommendation on your behalf. Looking forward to working with you in the future.

Sincerely,

Kurt Eichler
Executive Vice President
